RECON CYBER SECURITY

# PYTHON PROGRAMMING

DURATION 2 MONTHS

WWW.RECONFORCE.IN
OVERVIEW

To learn the Python programming language, you need a reliable Python interpreter (e.g., CPython) and learning resources like tutorials or books. Practice coding to build your skills effectively.

Pre-Requisites

Students should already be familiar with any operating system (Like: Windows Or Linux).

Who We Are?

We promise to offer the best training and certification programs to our students. We provide the programs and resources you need to succeed if you are just beginning your Cyber security career or are an experienced expert wishing to develop your skills. Contact us today to learn more about our training and certification options!

Why Choose us?

Welcome to our Cyber Security Training Institute, where we are committed to giving individuals and organisations who want to protect their digital assets thorough training and certification programmes. Our knowledgeable Trainers will bring you through the complexities of cybersecurity with their cutting-edge expertise and practical experience. You will learn useful methods and abilities to protect yourself from online dangers, such as ethical hacking, network security, incident response, and other things. Our programmes give you the opportunity to hone your skills and grow your profession through practical lab experiences and individualised coaching.

COURSE SYLLABUS

Python Programming Course Module

Tools and Benefits of the Diploma course

- 10 Gb Toolkit
- Online and Offline classes
- Certificate after completion
- Training by experienced trainers
- Checkpoint based training
- Class session recordings
- 24x7 Support
