

RECON CYBER SECURITY

WEB DESIGNING COURSE DURATION 3 MONTHS

I OVERVIEW

Web designing involves creating and arranging elements on a webpage to craft visually appealing and user-friendly online experiences. It combines aesthetics and functionality to enhance a website's usability and engagement.

I Pre-Requisites

Learn the fundamentals of HTML, CSS, and responsive design to create visually appealing and user-friendly websites. Gain proficiency in layout structuring, styling, and optimizing for various devices to build effective web experiences. Understand design principles, typography, and UI/UX concepts for well-rounded web designing expertise.

Who We Are?

We promise to offer the best training and certification programs to our students. We provide the programs and resources you need to succeed if you are just beginning your Cyber security career or are an experienced expert wishing to develop your skills. Contact us today to learn more about our training and certification options!

Why Choose us?

Welcome to our Cyber Security Training Institute, where we are committed to giving individuals and organisations who want to protect their digital assets thorough training and certification programmes. Our knowledgeable Trainers will bring you through the complexities of cybersecurity with their cutting-edge expertise and practical experience. You will learn useful methods and abilities to protect yourself from online dangers, such as ethical hacking, network security, incident response, and other things. Our programmes give you the opportunity to hone your skills and grow your profession through practical lab experiences and individualised coaching.

COURSE SYLLABUS

Web Designing Course Module

HTML (Week 1-2) 20 LESSONS

01. HTML Structure
02. HTML BLOCK
03. HTML Inline
04. HTML Element
05. HTML Attribute
06. HTML Marquee
07. HTML Image
08. HTML Link
09. HTML Name Anchor
10. HTML Style
11. HTML Frame
12. HTML Iframe
13. HTML Navigation Frame
14. HTML Form
15. HTML Font & text
16. HTML Video/Audio
17. HTML SVG
18. HTML Canvas
19. HTML Table
20. HTML List Menu

CSS (Week 3-5) 32 LESSONS

01. CSS Introduction
02. CSS Inline Style
03. CSS Internal Style

04. CSS External Style
05. CSS Padding
06. CSS ID/Class
07. CSS Margin
08. CSS Inline-Block
09. CSS Block
10. CSS Combinator
11. CSS Pseudo Element
12. CSS Pseudo Classes
13. CSS Selector
14. CSS Float CSS Border
15. CSS Position
16. CSS Opacity
17. CSS Visibility
18. CSS Overflow
19. CSS Multi Background
20. CSS Radius
22. CSS 2D Transform
23. CSS 3D Transform
24. CSS SKEW Transform
25. CSS Perspective
26. CSS Media Screen
27. CSS Flexbox
28. CSS linear Gradient
29. CSS Radial Gradient
30. CSS Animation
31. CSS Column
32. CSS Shadow
33. CSS Box Sizing

Java Script (Week 6-8) 34 LESSONS

01. Javascript INTRODUCTION
02. Js INLINE
03. Js INTERNAL
04. JS EXTERNAL
05. Js Comment
06. Js Variable
07. Js Logical Operator
08. Js Arithmetic Operator
09. Js Conditional Operator
10. Js For Loop
11. Js While Loop
12. Js Do While Loop
13. Js Switch Case
14. Js Array
15. Js String
16. Js Object
17. Js Window
18. Js Scroll
19. JS Animation
20. Js Function
22. JS DOM
23. Js Alert
25. Js Timing
26. DOM Date Time
27. DOM CSS
28. Js User Interface
29. Js Event

30. Js Image Slider
31. Js Show and Hide
32. Js Scroll Up
33. Js Scroll Down
34. Js scrolling Web Page
35. Js Animation

BootStrap (Week 9-10) 19 LESSONS

01. BS Introduction
02. BS Grid Basic
03. BS Well
04. BS Images
05. BS Alerts
06. BS Buttons
07. BS Badges/Labels
08. BS Progress Bars
09. BS Pagination
10. BS Pager
11. BS DropDown
12. BS Collapse
13. BS Navbar
14. BS Modal
15. BS Forms
16. BS Carousel
18. BS ToolTips
19. BS ScrollSpy
20. BS Templates

Tools and Benefits of the Diploma course

- ◊ 10 Gb Toolkit
- ◊ Online and Offline classes
- ◊ Certificate after completion
- ◊ Training by experienced trainers
- ◊ Checkpoint based training
- ◊ Class session recordings
- ◊ 24x7 Support
