SECURITY IS NOT COMPLETE WITHOUT U!

The security light made me feel safe, though I know that was an illusion. If there is light, you can just see what's coming for you a little more clearly.

Overview

In this course, students will learn about OWASP Top 10 critical vulnerabilities and how to find them on an online platform. Like: XSS, RFI-LFI attack, File uploading, SQL injection, etc.

Pre-Requisites

Students should already know about web development languages for code reading and modification. (Like: HTML, CSS, JAVA, etc.) **[Note: Only basic knowledge about Web-Application Languages]**

Who We Are?

Recon Force is a Training and Consulting company and adheres to training standards. We are bringing it to improve its security training and services through technology-enabled IT content.
